CORELLE® DINNERWARE

Introduced in 1970, CORELLE® is recognized worldwide for its legendary strength and durability. The superior durability of Corelle is a result of the unique manufacturing process that produces the world's Unique 3-Layer Laminated Glass – Vitrelle. It is the ideal lightweight dinnerware for daily use that resists chipping, breakage and staining. A wide selection of attractive designs and shapes makes every dining occasion memorable - TRULY A LONG LASTING BEAUTY.

DURABILITY

Made of Vitrelle, a unique three-layered laminated glass for superior strength

HYGIENIC

Smooth, Non-porous surface provides assurance on hygiene as it does not retain food particles, odors or stains

STACKABLE & LIGHTWEIGHT

1/2 the thickness and 1/3 the weight of ceramic dinnerware for compact storage and easy handling

LONG LASTING DECORATION

Designs are long lasting and will not fade, scratch or wear off even after years of use. Decoration strictly complies to US FDA (Food and Drug Administration) standards for non-toxic release, and is safe & hygienic

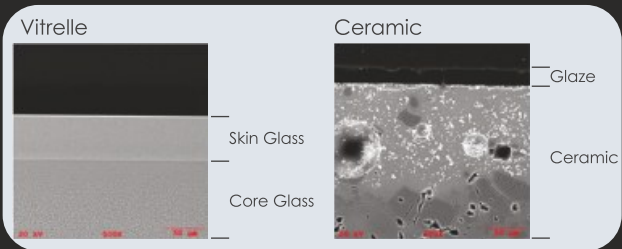

THE ORIGINAL
BREAK & CHIP RESISTANT
DINNERWARE

Ultra-durable, ultra-light corelle dinnerware made its pioneering debut in the kitchen in the early 1970s. For more than four decades, inspired cooks have been using it to make a statement about how much they care about the people they serve.

Revolutionary Material – VITRELLE

Corelle’s durability is due to its unique sandwich construction which bonds three layers of special glass materials. The bonding results in glass dinnerware that is far stronger than other competing brands with single glass composition.

Vitrelle glass has zero pores! Dinnerware stays clean and white like new after years of usage.

- Break & Chip Resistant
- Microwave Safe
- Oven Safe
- Easy to Clean
- Dishwasher Safe
- Versatile
- Stackable
- Lightweight
- Consumer Safe

Vitrele® was first intended for TV screens in the 1940s

WHY IS CORELLE SO STRONG AND LIGHTWEIGHT?

It's made of a unique glass called **Vitrele®**, made by laminating a top and bottom layer of clear, thin glass to a core center layer - making it super tough, scratch, stain and break resistant.
