

BergHOFF[®]

LEO SERIES COOKWARE

india
EXCLUSIVE

SALIENT FEATURES

ALL KITCHENWARE

1. Healthy Cera Green ceramic non-stick coating
2. Full stainless steel induction disc at the bottom (99 % coverage) for fast and even heat transfer. This enables energy efficient cooking.
3. Excellent heat retention and distribution
4. 5 year warranty on coating
5. Enhanced durability and safety
6. Stay cool rivet-less handle for extra comfort and safety
7. Sturdy ergonomic grip
8. Lightweight material that's easy to handle and clean
9. Dishwasher-safe
10. Oven-proof up to 180°C/ 356°F
11. Suitable for all cooktops including induction and downdraft exhaust systems
12. Stylish and modern aesthetics

TRANSPARENT GLASS LIDS

1. Clear glass lid with integrated air duct and straining function
2. Transparent glass cover - monitors your cooking without lifting the lid
3. Silicon rim for a perfect seal, no sizzling sounds - just smooth cooking
4. Spoon resting knob on the lid

IMPORTANT NOTE:

It is advisable to always grease the pan and then heat it. Heating an empty pan will destroy the coating (non-stick function) over time.

USE & CARE

▶ BEFORE FIRST TIME USE

- After unpacking your cookware, wash the item in warm, soapy water with a soft sponge. Rinse thoroughly and dry completely with a soft cloth.
- Before cooking with your new cookware for the first time: heat the pan over low heat, rub the non-stick surface with vegetable oil and allow the pan to cool. Then wipe out as much of the oil as possible with a paper towel. This will lightly season the surface and enhance the properties of the coating.

▶ CARE AND CLEANING

- Remember to cool down your pan before immersing in water.
- Although your non-stick coated pan is dishwasher safe, we don't recommend cleaning the cookware in the dishwasher. The high heat and harsh detergents will deteriorate the quality of the coating.
- After each use clean by hand with a dish detergent especially made for hand washing. Be sure that you do not use a harsh cleaning product that is based on citric acids or that contains chlorine bleach. Use warm, soapy water and sponge or a dishcloth. Do not use steel wool or nylon scrubbing pads, oven cleaner or any cleaner that is abrasive, that contains chlorine bleach or is a citrus based cleanser. Rinse in warm water and dry immediately with a soft cloth.
- Always clean your cookware thoroughly since, the next time you use it, any food residue will cook onto the surface causing food to stick.
- Food residue stuck to cookware can easily be removed by filling the bottom of the pan with water and letting it soak while gently heating it at a low temperature. Do not scrape off the food with a metal object.
- Tip: to help protect your pans when stacking them, place a soft cloth such as a tea towel inside each pan.
- Don't use your cookware as a container to store food. Keep the cookware clean and empty when not in use.
